Section 7. Terms of Reference

Procurement of consulting services for "Conducting Vocational Skill Development Training to the potential migrant workers in fiscal year 2082/083" and Terms of References (TOR) for the assignment (Procurement Number FEBS-082-083-4.1)

1. Background

The Foreign Employment Board (FEB) has allocated funding as part of its Approved Annual Program for Fiscal Year 2082/083, under Serial Number 4.1, to implement a short-term skill development training program. This initiative is specifically designed to target youths who are preparing for employment opportunities in international job markets. The primary objective of the program is to equip these young individuals with the skills, competencies, and knowledge necessary to enhance their employability and overall effectiveness in foreign work environments. By focusing on skill development, this program seeks empowering participants with the tools they need to successfully adapt to and excel in the global workforce. After the completion of training, participants will be facilitated for skill testing for proper recognition.

However, despite its strong commitment to supporting these aspiring migrant workers, FEB currently faces challenges in delivering the training program independently due to its lack of adequate infrastructure and skilled human resources. Recognizing this gap, the FEB Secretariat has announced its intention to collaborate with qualified Technical Training Providers (TTPs) that possess the expertise and capacity to implement the program in alignment with the FEB's objectives. The role of these TTPs will be crucial in ensuring that the training is delivered at a high standard and achieves its intended outcomes.

To ensure the selection of the most capable and cost-effective service providers, the FEB Secretariat will follow a Quality and Cost-Based Selection (QCBS) approach. This method, which is in line with the Public Procurement Monitoring Office (PPMO) Guidelines, involves a comprehensive evaluation of both the quality of the proposed training services and the associated costs. By balancing quality with cost-effectiveness, the FEB aims to select TTPs that are best suited to deliver impactful training while maintaining financial prudence. Through this program, the FEB seeks to make a significant contribution to the professional development and future employment prospects of the nation's youth in global job markets.

2. Applicable Laws and existing regulations

The procurement of this assignment will be in line with the Chapter 4 of Public Procurement Act, 2063.

PART II

Section 8. Conditions of Contract and Contract Forms

Foreword

1. Part II includes standard Contract forms for Consulting Services (a Lump-Sum Contract).
2. **Lump-Sum Contract:** This type of contract is used mainly for assignments in which the scope and the duration of the Services and the required output of the Consultant are clearly defined. Payments are linked to outputs (deliverables) such as reports, drawings, bill of quantities, bidding documents, or software programs. Lump-sum contracts are easier to administer because they operate on the principle of a fixed price for a fixed scope, and payments are due on clearly specified outputs and milestones. Nevertheless, quality control of the Consultant's outputs by the Client is paramount.
